elmeg T500

Extension of 30 keys for elmeg S530 / S560

The key extension module elmeg T500 expands the system phones elmeg S530 or elmeg S560 by 30 freely programmable keys (function and dial keys).

Product description

Each key can be used in 2 levels and has 2 LEDs for status information – e.g. to show the busy status of the employees. A system phone can be expanded by up to three T500 modules - and can therefore be completed to a complex communication center.
